B.Tech in Computer Science and Engineering (Information Security) · VIT Vellore · 2024–2028

Education

Vellore Institute of Technology, Vellore 2024 – 2028

B.Tech in Computer Science and Engineering (Information Security)

CGPA: 9.00 / 10 Semester GPAs: 9.12, 9.31, 8.94, 8.73 Class XII CBSE: 89.8% Class X CBSE: 94.8%

Experience

Cybersecurity Analyst Intern May 2025 – July 2025

State Bank of India, Global IT Centre

- Supported enterprise cybersecurity operations within a regulated, large-scale banking environment.
- Performed web and application security testing, access control validation, and structured threat analysis.
- Participated in end-to-end vulnerability assessment and penetration testing (VAPT) workflows.
- Studied and applied encryption standards, secure coding practices, and compliance-aligned controls.

Projects

Secure File Hashing & Dual Encryption Web Application *SBI Internship Project*

- Engineered a secure file management system ensuring confidentiality, integrity, and full auditability.
- Implemented SHA-256 hashing with hybrid encryption using AES-256 and RSA-2048 key pairs.
- Built session-based authentication with protected routes for encryption and decryption operations.
- Developed tamper detection via post-decryption hash verification, preventing silent data corruption.
- Designed audit-ready encryption history logging using MySQL for compliance and forensics use cases.
- **Stack:** Node.js, Express.js, MySQL, AES-256, RSA-2048, SHA-256, bcrypt

Signify: Real-Time Sign Language to Text & Speech Converter

- Built a real-time assistive system translating sign language gestures into text and synthesized speech.
- Leveraged computer vision-based hand landmark detection on live video streams for low-latency inference.
- Developed and trained an ML-based gesture classification pipeline with high recognition accuracy.
- Integrated text-to-speech synthesis to improve accessibility for deaf and hard-of-hearing users in video calls.
- **Stack:** Python, OpenCV, MediaPipe, PyTorch / Scikit-learn, TTS APIs

Technical Skills

Languages: C, C++, Python, Java, JavaScript, SQL (MySQL)

Cybersecurity: Web & Application Security, Cryptography (AES, RSA, SHA), VAPT, Threat Analysis, Secure Coding, Access Control, Encryption & Hashing

Web Development: Node.js, Express.js, REST APIs, Session Auth, bcrypt

AI / ML: PyTorch, Scikit-learn, Computer Vision (OpenCV, MediaPipe), TTS, Gesture Recognition

Tools & Platforms: Git, GitHub, Linux, MySQL, VS Code

Relevant Coursework

Data Structures & Algorithms · Operating Systems · Computer Networks · Cryptography · Information Security · Database Management Systems

Certifications

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate Oracle, 2025

SQL (Intermediate) Certificate HackerRank HackerRank, 2026

Positions of Responsibility

Technical Head Present

Dream Merchants Club, VIT Vellore

- Leading the technical vertical of the club; directing development projects and infrastructure choices.

Core Member – Events & Finance

Bulls and Bears Club, VIT Vellore

- Organized *Property Odissi*, the club's flagship event focused on real estate valuation, investment risk, and financial analysis.
